**Directions:** Please check all of the times when you could be available to meet with your group. If you are free for most of a time block, but not all of it, check it anyway. This does not mean you would have to meet with your group during all of those times. I am simply trying to form groups based on available free time. If you can only check off a couple of times, you may want to take the course at another time. Meeting with a group outside of class is a major component of this course.
