

Student Handout: The Assignment Tool

When your instructor posts an assignment using Blackboard's Assignment tool, you are able to download any documents found in that assignment area. More importantly, you are able to upload or "hand in" your assignment to this same area when you are finished. The basic steps are easy and involve clicking on a link to open the assignment area, downloading any documents your instructor might have posted, doing your work, then coming back to the assignment tool area and uploading your completed assignment.

Here's how to use Assignment Tool:

Find and View Your Assignment

- Your instructor will tell you where your assignment is located within Blackboard.
- Click on the assignment name to complete the assignment.

2. Click on the assignment name to open the assignment.
3. In the **Assignment Submission** section of the page, click on **Browse My Computer** to find and attach your assignment. Alternatively, you can drag and drop files into the area inside the dotted lines directly from your computer.

Tips for using Assignment Tool successfully

- When downloading a document to your computer from Blackboard, you need to save it to your computer *before* working on it. If you work on it in your browser, you won't be able to save it.
- When naming documents that you will be uploading back to Blackboard to “hand in” use a simple naming convention such as last name, assignment name, date. For example, “smith_essay_4-2-09”. Your instructor might have a naming convention you need to use. At all costs, avoid symbols such as: # % \$ & * and / in your file names.
- Use the comment box to add comments to your instructor about the assignment, for example to clarify a point or add a simple comment, but do not paste your assignment into the comment box.
