Blackboard Retention Center Quick Guide

The Retention Center replaces the Early Warning System and provides an easy way for instructors to discover which students in a course are at risk. The instructor can communicate with struggling students and help them take immediate action for improvement. The current strategic plan calls for improved retention rates and this tool is one of several Blackboard tools that can help. Other Blackboard tools that aid in retention are the Grade Center, Course Reports and Performance Dashboard.

More detailed information on the Retention Center can be found at: http://help.blackboard.com

Accessing the Retention Center

The Retention Center is accessible in the Evaluation section of a course's Control Panel. The information in the Retention Center is for instructors only and is not seen by your students.

You can turn the Retention Center on or off in your course from the Control Panel > Customization > Tool Availability. If you teach a course with another instructor, and turn off the Retention Center, you are turning it off for both of you.

When you access the Retention Center, the data is refreshed. However, the data for the course activity rule is recorded once a day.

At-Risk Table

The main table displays which students are at risk in one or more of four categories:

- Missed Deadlines
- Grades
- Course Activity
- Course Access

Sort columns by clicking the heading title. The table is sorted by most at-risk students and then alphabetically.

Click the red dot indicator in a student's cell for more information, to include the student in the monitoring section in the right panel, or to send an email.

Click students' names to access their Retention Status pages. View their risk factors and the notification emails sent.
Create Rules

Instructors can create new rules, edit existing rules, and delete rules by clicking Customize on the action bar. Instructors can create as many rules as you need in each category.

*NOTE: Only one rule from each category (above) will be displayed at a time, so you must deactivate rules that you do not want to show.
Getting Help with Technology at the University of Hartford

Faculty Center for Learning Development (FCLD)
FCLD provides consulting and instructional support to faculty and staff who are using technology in teaching and learning. The FCLD Faculty Lab in Mortensen 203a is available for faculty support and use and is equipped with instructional technology-related equipment including: PCs, Macs, scanners, and projectors as well as support staff. Faculty wishing to use the lab may contact FCLD.
