Quick Introduction to GarageBand

Apple’s GarageBand is a powerful application that allows users to record and edit music and audio recordings. Instructors can record musical performances or create high-quality lecture recordings to help students with difficult concepts or make up for missed class time. The recordings can be saved as podcasts or uploaded to Blackboard.

GarageBand is a Mac-only application that is available as part of Apple’s iLife suite or can be downloaded to the iPad or iPhone.

Below are the basic parts of the GarageBand window:

For more detailed instructions on using GarageBand, watch the Apple tutorials at: [http://support.apple.com/videos/#garageband](http://support.apple.com/videos/#garageband)
Faculty Center for Learning Development (FCLD)

FCLD provides consulting and instructional support to faculty and staff who are using technology in teaching and learning. The FCLD Faculty Lab in Mortensen 203a is available for faculty support and use and is equipped with instructional technology-related equipment including: PCs, Macs, scanners, and projectors as well as support staff. Faculty wishing to use the lab may contact FCLD.
