Embedding a YouTube video into PowerPoint 2010

These instructions will explain the process to embed a YouTube video into a PowerPoint presentation. This method offers an alternative from pasting a link into a PowerPoint in that it does not require leaving the presentation to show the video. During the presentation, simply click the video to play. Controls similar to those found on a normal YouTube page will be available as well.

Here are the steps for embedding a YouTube video into PowerPoint 2010:

1.) Click the **Insert** tab at the top of the screen.

2.) Click on the **Video** button and select **Video from Web Site** (Be sure to click on the word “Video” rather than the video icon.)

3.) A window will pop up where you can paste the video’s embedding code.

4.) Open your Internet browser and navigate to the desired YouTube video. Click on the **Share** button to find the code to embed.

5.) Click on the **Embed** button to get the code.

6.) Highlight the code in the text box and copy it.

7.) Open up PowerPoint and paste the code into the Insert Video window. Click **Insert**.

The video will now appear in your PowerPoint presentation.

NOTE: You can use **Insert Video from Web Site** to insert web videos from other websites as well.
Getting Help with Technology at the University of Hartford

Faculty Center for Learning Development (FCLD)
FCLD provides consulting and instructional support to faculty and staff who are using technology in teaching and learning. The FCLD Faculty Lab in Mortensen 203a is available for faculty support and use and is equipped with instructional technology-related equipment including: PCs, Macs, scanners, and projectors as well as support staff. Faculty wishing to use the lab may contact FCLD.
